It was brought to the attention of the lodge that we need to start sending ordeal candidates notices about upcoming ordeals. So we can increase membership.

It was brought to the attention of the lodge leadership that we need to start sending brotherhood candidates reminders of the material to study a month in advance of ordeal weekend so they won't be sitting around studying while work projects need to be done.

It was proposed that the lodge has a summer fellowship. Some of the places that were proposed include Skymont with the water front open with the blob, and/or the C.O.P.E course open. It was brought to the lodge's attention if we use Skymont it would need to be after Webelos camp.

It was brought to the attention of the lodge leadership that the lodge needs to get more word out about OA high adventure opportunities since few people know about these opportunities.

It was brought to the lodge's attention that if we are planning to participate in AIE events at the next conclave the lodge needs to start promoting a dance team.

Suggestions were made to have the fall fellowship at urban rocks or to have a lock-in at the YMCA since it will more than likely be cold in the fall.

James Petty gave a short presentation about OA reps

Memorial Day Flag Placement Saturday is May 25.
